Criteria for Endocrine Disrupting properties, SCOPAFF Meeting 28 February 2017

Dear Deputy Permanent Representative

I am writing to you regarding the ongoing debate around the Commission proposal setting out criteria for the identification of Endocrine Disruptors.

I would like to draw your attention to the attached letter we have today sent to Commissioner Andriukaitis objecting to the proposal that is being put forward for a vote at the next SCoPAFF meeting on 28th February.

I would take the opportunity to strongly encourage your Member State to vote against the proposal.

Yours sincerely

Jean-Philippe Azoulay
Director General
