Commission proposals to further restrict the uses of Imidacloprid, Thiamethoxam and Clothianidin

Dear Dr Berend,

Following our letter of last week, we have been given notice yesterday by the ECJ that judgement will be made on 17th May in the 3 cases brought against the Commission with regards to the current restrictions on neonicotinoids. Given the significant legal implications this ruling could have, we write to urge you to delay the decision on your current proposal until after this date.

Yours sincerely

Peter Day
Director Regulatory Affairs
