THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1829/2003 of the European Parliament and of the Council of 22 September 2003 on genetically modified food and feed ⁽¹⁾, and in particular Article 7(3) and Article 19(3) thereof,

Whereas:

- (1) On 31 March 2017, Monsanto Europe S.A./N.V., based in Belgium, submitted, on behalf of Monsanto Company, based in the United States, an application to the national competent authority of the Netherlands for the placing on the market of foods, food ingredients and feed containing, consisting of or produced from genetically modified maize MON 87419, in accordance with Articles 5 and 17 of Regulation (EC) No 1829/2003 ('the application'). The application also covered the placing on the market of products containing or consisting of genetically modified maize MON 87419 for uses other than food and feed, with the exception of cultivation.
- (2) In accordance with Article 5(5) and Article 17(5) of Regulation (EC) No 1829/2003, the application included information and conclusions about the risk assessment carried out in accordance with the principles set out in Annex II to Directive 2001/18/EC of the European Parliament and of the Council ⁽²⁾. It also included the information required pursuant to Annexes III and IV to that Directive and a monitoring plan for environmental effects in accordance with Annex VII to that Directive.
- (3) By a letter dated 27 August 2018, Monsanto Europe S.A./N.V. informed the Commission that it has converted its legal form and changed its name to Bayer Agriculture BVBA Belgium.

- (5) By a letter dated 28 July 2020, Bayer Agriculture BVBA Belgium representing Monsanto Company, United States, informed the Commission that, as of 1 August 2020, Monsanto Company, converts its legal form and changes its name to Bayer CropScience LP.
- (6) On 20 January 2023, the European Food Safety Authority ('the Authority') issued a favourable scientific opinion in accordance with Articles 6 and 18 of Regulation (EC) No 1829/2003 ⁽³⁾. The Authority concluded that genetically modified maize MON 87419, as described in the application, is as safe as its conventional counterpart and the tested non-genetically modified maize reference varieties with respect to the potential effects on human and animal health and the environment. The Authority also concluded that the consumption of food and feed from genetically modified maize MON 87419 does not represent a nutritional concern in humans and animals.

However, in order to ensure that the use of those products remains within the limits of the authorisation granted by this Decision, the labelling of the products containing or consisting of genetically modified maize MON 87419, with the exception of foods and food ingredients, should contain a clear indication that they are not intended for cultivation.
- (12) The authorisation holder should submit annual reports on the implementation and on the results of the activities set out in the monitoring plan for environmental effects. Those results should be presented in accordance with the requirements laid down in Commission Decision 2009/770/EC ⁽⁶⁾.
